My Objective: My objectives are to go to college for the sake of an extensive education, learn about things that interest me and will help me to my other goals, and to treat others with the most positive and supportive attitude I can achieve.

Education

I've completed my freshman year at high school and I'll graduate in 2021. The school I go to is Impact Academy of Arts and Technology in Hayward.

Experience

- I've been volunteering at the Hayward Support Center at Weekes Library since early January. There I tutor children who are in need of assistance with their work and occasionally set up the center and put everything away.
Date: 01/22/2018 to present
- I go to a summer program called SMASH where they help students of color to be able to go to a four-year university and enter the STEM field, and to also give back to their community with their knowledge. This program last for 5 weeks and occur for three summers straight. You live inside university dorms and take advanced STEM classes there (my university being UC Berkeley). They also provide a Saturday Academy where they give us support throughout the school year.
Date: 06/16/18 to present

Honors & Awards

- I've gotten a Latino Recognition from the city of Hayward in 6th grade and 8th grade where they celebrated students with an overall GPA of 3.5 or higher.
- I've gotten a 3.5 GPA or higher throughout middle school and high school. I've also maintained my extracurriculars

Skills

- I have expertise in Computer Science, specifically HTML, CSS, and Javascript
- I have expertise in math up to Geometry
- I have expertise working with both customers and work colleagues
